(1) The G.O. directs the throwing out of 3 clerks. Normally therefore the 3 clerks mentioned below (shown in the statement flagged Z herewith) should go:

1. N. Krishnaswamy
2. P. Venkateswami Naidu
3. C.S. Ramakrishnayya

But the Director proposes to retain P. Venkateswami Naidu (mentioned above) and dispense with the services of the Laboratory Assistant (C. Padmanabharao, also shown in the list, flag Z) for reasons stated. As regards the reason given it might be noted that Padmanabharao also was a Telugu man before that was Laboratory Assistant. Of the two perhaps Padmanabharao can be spared

GEN'L REV. SEC
1 - NOV 1922

To

B. Venkoba Rao, Esq., B.A.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
General Department, B a n g a l o r e.

Sir,

With reference to your letter No.2465/Geol.24-22, dated 17th October 1922, stating that the services of the Gardener in this Department have to be dispensed with because that post does not find a place in the Government Order effecting retrenchments in this Department and it is not possible to find from the revised budget the amount required for meeting the expenditure in respect of that post, I have the honor to state that the question of the post of the Gardener did not find a place in the retrenchment order, as it was only a temporary one and the cases of all temporary establishments were dealt with separately each on its own merits.

2. A Gardener has been entertained in this Department since its inception and was being paid out of the contingent grant up to November 1911. In November 1911, Government directed that the pay of the Gardener should be drawn on temporary establishment bills and sanctioned the continuance of the post for a period of five years from 1st September 1911. In Government Order No.G.16268-9 Geol.42-15-6, dated 31st May 1916, sanction was accorded for the continuance of the services of the Gardener for a further period of five years up to 1st

September

September 1921 and a further extension up to end of June 1922 was sanctioned in Order No.I C.2274-5 Geol.20-21-6, IV dated 14th October 1921.

2. I have already emphasized in my previous communications to Government the indispensable necessity of a Gardener for this office and in this connection I have also to point out that the Gardener also does the work of a Sweeper. The present incumbent, who is styled as Sweeper, is more a Scavenger than a Sweeper and the present Gardener does a large amount of sweeping work also. We cannot do without at least one Scavenger and one Sweeper for this office, and I beg, therefore, that Government may be pleased to sanction, with effect from 8th August 1922, the date of the order of retrenchment, the entertainment of one Scavenger and one Sweeper on Rs.11/- each per mensem in lieu of the Sweeper on Rs 10/- on the permanent establishment and the Gardener on Rs.11/- hitherto on the temporary establishment The Sweeper can also attend to the gardening work. This arrangement would mean that the present Sweeper should hereafter be called a Scavenger and it would be a misnomer to put the post under "Sweeper." The present Gardener would then become "Sweeper."

3. The additional expenditure involved in consequence of this arrangement can be met out of the savings anticipated under the head "Library and Laboratory" in the budget of this Department for the current year and due provision will be made in the budget of succeeding years.

I have the honor to be,
Sir,
Your most obedient servant,

Sir,

In reply to your letter No.3116/Geol.19-28-22, 15th November 1922, I have the honour to state that the total number of 18 menials proposed in my letter of 3rd November 1922, does not include the scavenger or the sweeper mentioned in my letter No.681, dated 1st November 1922, or the Section Cutters. The nature of the work done by each of these three classes of menials is very different to what is done by peons or lascars.

I have the honour to be,

Sir,

Your most obedient servant,

B. Jaya Ram

Director,

Mysore Geological Department.

In giving effect to the retrenchments the Director proposes that instead of the

post of a clerk on 25-2-35, the post of the Laboratory Assistant carrying the same pay may be abolished. This is approved.

2. As regards the reduction of menial establishment the Director reports that the application of the general principles annunciated in G.O. of 11-9-22 read above operates harshly and requests that in addition to 18 hands proposed for the Department, one mutchi, three section cutters, one sweeper, one scavenger and one gardener may be sanctioned.

3. Govt. consider that in addition to the section cutters who have the avidas distinct from peons the services of a mutchi, one sweeper and one scavenger are necessary. The post a gardener was a temporary one sanctioned from year to year Govt. do not consider it necessary to make the post permanent. In case the Director can find money from the current year's contingent, grant the services of the gardener may be continued as a temporary measure up to 30-4-23, otherwise the same should be dispensed with.
